

REMARKS/ARGUMENTS

In the application specification, the first page's drawing is replaced by a new drawing; cross-reference to related applications is added to prior art section; the paragraphs [1] to [4] are modified to including prior art related applications; the paragraphs [5], [6] and [7] are modified to correct wording problems; new paragraphs [6.1], [7.1] and [7.2] are added to supply additional information about this invention; paragraphs [9] to [20] are entirely replaced by entirely new paragraphs which describe 12 new figures from the latest new drawings, paragraphs [21] to [27] are removed because their related figures are removed from the drawings; paragraphs [28], [29], [32], and [38] are updated to correct wording problems; paragraphs [28.1], [32.1] and [38.1] are added to supply additional information about this invention; paragraphs [30], and [31] are removed because this invention eliminates the claim related to those two paragraphs.

All previous figures in the original drawings are replaced by 12 new figures that use correct unique symbols to present and describe this invention.

In this application, previous claims 1, claim 2, and claim 3 are modified, which are now claim 1, claim 2, claim 3 and claim 4 in the amended claim list; previous claim 4 and claim 5 are removed; a new claim 5 that related to reduce fogging of the automobile front side window is added.

Respectfully submitted,

By
